

## INTERNATIONAL SCHOOL OF DAKAR

### School Technology Resources Responsibility Contract

ISD provides technology resources for students to use as part of their learning process. These resources include Video cameras, Digital still cameras, microphones etc. Students are trained in the use and maintenance of these resources as part of their training in the classes concerned. Sometimes these resources are used outside their classes and the students are required to take responsibility for these resources.

- I understand fully the need for taking responsibility for the materials I check out in my name.
- In case the material(s) I checked out is/are stolen, or misplaced or lost or broken, I will pay the cost to ISD or replace them with same brand or quality.
- In case the parts of the material(s) got damaged due to my use of the same, I will pay the repair charges to ISD.
- I assure you that I will maintain and use the resources efficiently and return them promptly once my work is completed.
